

Dr. Anurag K. Srivastava, Assistant Professor,
Energy System Innovation Center (ESIC)
Washington State University
asrivast@eecs.wsu.edu

Research Interests

- *Power system operation and control:*
 - *Application of synchrophasor data and smart meter data*
 - *Microgrid energy management*
 - *Stability, security and vulnerability analysis including cyber-physical analysis*

- *Wuhan University and Tsinghua University are member of ESIC*
- *Visited Tsinghua in December 2012*

US-China Collaboration

○ Synchrophasor applications and microgrid energy management
